

Future Focus

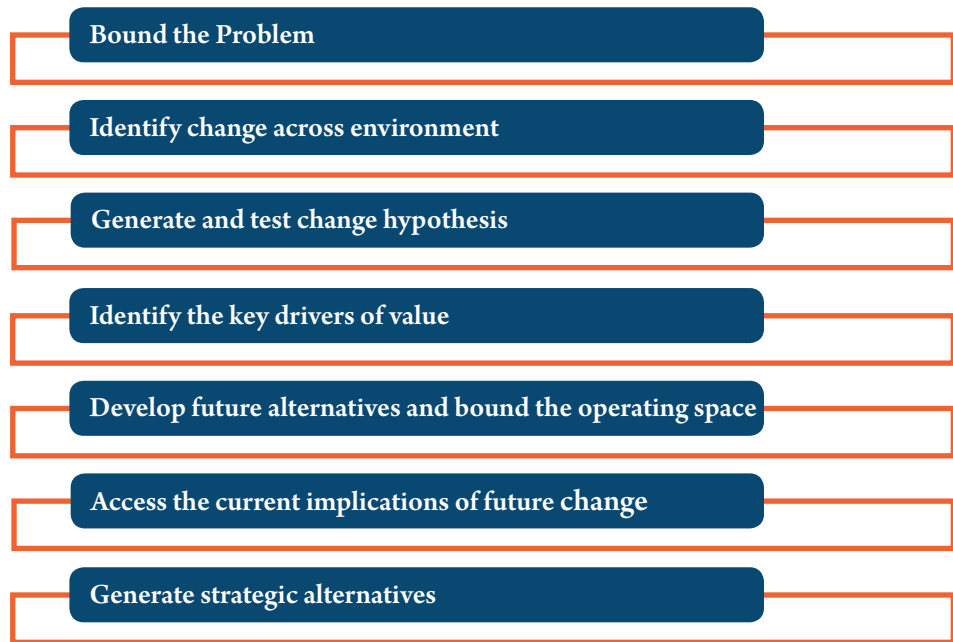

Future Focus:

The streamlined approach to bounding the future corporate operating space by:

- Understanding change
- Eliciting risks
- Implementing fast decision-making
- Engaging the workforce

Diligent Innovations' Future Focus ensures that organizations do not get paralyzed by the current uncertain times but, on the contrary, risks are proactively addressed and new, profitable opportunities actively sought after. The result is a new approach that centers not on solving specific problems but on leveraging the complexities inherent in the system.

The Future Focus Process

Diligent Innovations is dedicated to making Future Focus engagements:

- Fully customizable to your firm's needs
- A collaborative experience where there is an extensive and in-depth scope of issues prior to the session
- An impactful process where executive decisions are made
- A disciplined 90-day approach towards implementation and follow-through
- Fully consistent with, and complementary to, principles of *Six Sigma* & *Lean* processes
